SCOTTY CAMERON PHANTOM X

The world's most renowned putter maker has been really busy this start of the year. Not long after releasing the new Select Fastback 2 and Squareback 1.5 mid-mallet putters, Scotty Cameron is back with a new line that includes nine high-tech mallets featuring tour preferred alignment cues and multiple shaft bends.

• Available at all authorised Titleist outlets.

UNDER ARMOUR SPIETH 3

It is called dedication when a sports brand makes only one pair of shoes for their star athlete that is commercially viable. That is what Under Armour has done with the third iteration of Jordan Spieth's golf shoe.

Simply named "Spieth 3", these new shoes use patented rotational resistance and traction, both vertically and horizontally, to keep the feet on the ground as long as possible.

• Available at selected MST Golf stores.

FJ FURY

This latest innovation from high performance shoemaker, FootJoy, is truly created to meet the demands of Tour-level vigour as well as soft, pliable comfort.

Secured with dynamic low profile pulsar cleats under the foot, inside the shoe is a soft, stretch, one-piece Inner Fit Sleeve lasted underneath the insole board to provide a secure fit with no tongue slippage, enveloping the foot in comfort and control.

• Available at all authorised FootJoy outlets.

COBRA KING F9 SPEEDBACK DRIVER

Enjoying rave reviews late last year, the Cobra King F9 has now launched a special edition Camo driver to commemorate the first Major of the year.

Featuring one-of-a-kind custom camo aesthetic that matches the custom Cobra x Vessel bag that Rickie Fowler carried during the Masters, its pattern matches the outlines of the United States and state of Georgia in a layered design or an aggressive and sophisticated look that is unmatched.

• Available at all authorised Cobra outlets.

CLEVELAND RTX 4 FORGED WEDGES

Interestingly, the official line that Cleveland took when naming an improvement for the RTX 4 wedge is that its specifications are especially made for Japan golfers.

This could mean game improvement prowess but we also think it means that extra buttery touch, stemming from the use of super soft S20C forged steel to create this series.

Already known for producing extreme spin performance, there is now progressive centre of gravity adjustments made by manipulating the muscle back of each loft available in the series for better control over shotmaking and trajectory control.

• Available at all Pan-West outlets.

CALLAWAY APEX 19 IRONS

A forged iron that offers sublime control for the better player as well as improved distances, the new Callaway Apex 19 also offers that extra feel that top golfers look for.

They do this by forging a 1025 mild carbon steel body with proprietary elastic urethane microspheres that allow the club face to deflect without compromising COR or ball speed while giving the iron a sound and feel similar to urethane; much like the touch and softness of a golf ball

• Available at Transview Golf stores.
